that the family shall pay \$e0, and the single man \$10, for the surveying lees. A family, as defined in our Contracts, mast consist of—
"A man and his wife, with or without children."

"A widow with two or more children; if males under 17 years of age, if females, unmarried."
"Two single men over the age of seventeen years, each one being entitled to 100 acres."
On his arrival in the Colony, the Emlgrants should forthwith apply to the Agent of the Conpany, Mr. Henry O. Hedgeove, residing at Niewartsville. In Deuton county, who will at all times be ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and give him a certificate therefor; which certificate will be evidence of his having settled in the Colony in due tin.

Our Grant lies in the North-Eastern part of Texas, between the 32nd and 24th degrees of Lautinde North, and 19th and 22nd degrees of Lougitud West, from Washington; beginning on the south side of Red River, at a point 12 miles cast of the False Ouachitta, running thence due South 100 miles, thence East 164 miles, thence North 190 miles, thence West 164 miles to the beginning, having a from on the meanderings of Red River of nearly 300 miles, and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brason and Trinity Rivers, the Trinity being navigable for Steam Boats of light daught, from the interior of the Colony to the Gulf of Mexico, into which it oupties, some 25 miles from Galveston, and Red Biver, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that if will produce 40 bushels to the acre, weigang 65 to 0 pounds to the bushel. Indian corn, rye, barley, nots, sweet and Irish potatoes, peas, beaus, necloss, garden vegetables of a kinds, cotton, hemp and lobac

Colonel Wi liam Myers, who removed there from Garrard County, Ky., tast full, says, in a letter dated 8th May, 1847.—"I will not venture to tell my friends in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in unany places five feet, and the kinnest land to work I every put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first-rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Tevas expire on the 1st day of July, 1843, and lind he must not only be in the Colony, but that he must have selected in a land, buil a house or cabin thereon, and he residing thersin with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons desiring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

Nickness, Lewcorrhea or Writes, Barrenness, Qc.

THESE BITTERS have been used by Dr. Taylor in an extensive practice for twenty-seven years, and have recently been proven in many parts of the country to be the most valuable Medicine ever known for restoring female health. Females of every age will find them to be a never failing remedy in all cases of Deranged Menstruation, bringing about regular, easy, and healthy menstrual evacuations.

In the critical periods of life, when there is an effort of nature either to set up or arrest the monthly sickness, they are essential to health, warding off Dropsies and Consumptions, which are so common to those stages of life. The general health is so improved by their use that Barrenness cannot exist under their nillucuce.

Influence.

The Proprietor of this Medicine is confident in the belief that in every curable case, this Medicine, if fairly tried, will effect a cure; and all he asks is a trial.

He had drawn an amendment which he had intended to offer, but as one amendment had been offered, he did not wish at this late stage of the session, to embarrass the bill. He discussed the proposition at length-his remarks will be given hereafter.

Mr. HAGGARD thought the objections to the mendment, by the gentleman from Montgomery, (Mr. Hamilton.) were not well founded: he thought that the 1st Auditor could perform the duties of Superintendent as promptly and ably as any Superintendent that could be employed, and it saved to the State the sum of \$1000, by paying only \$500 to the Clerk, instead of paying \$1,500 to a Superintendent. The same proposition now made by him, in the amendment, was before the House at its last sesion, and the gentleman from Hardia, (Mr. T. D. Brown.) apposed it then. This House had not refused to vote an appropriation of \$15,000, for the erection of a monument to the dead, and now would it refuse to vote \$20,000 to the poor and needy children of the State. He contended that it was perfectly just and right that the children should have this appropriation, and he should insist upon it as long as there was no other better system of-

Mr. T. D. BROWN replied to the gentleman from Cumberland, (Mr. Haggard.) He had voted against the amendment now offered, at the last session, be cause he believed it an incompetent plan, and he should so vote again.

A Biographical sketch of Jased De Mint. As it may not be uninteresting to the Kentucky have thought proper to give the following for their perusal:

JARED DE MINT, the subject of this narrative, was born in Fairfax county, Virginia, on the 5th of August, in the year 1760. He emigrated to Pennsylvania in 1777, and in 1785, came to Kentucky, and settled at the falls of Ohio, (now Louisville.) As has been stated, there were fifteen Indians, only one of whom could speak or understand English. When they all laid down to sleep, they placed him in the centre, to prevent his escape. At this place the Indian who could speak Edglish gave him to understand, at day light next morning they would cross the river, and they would meet other Indians, hold a war dance and burn him. De Mint used the precaution to place his knees near the back of the Indian lying nearest him, so as to have a few inches of surplus tugg-he commenced applying his spittle to the knots of the tugg, and in a few minutes the knots gave way, he got the noose loose and slipt it over his head-he stealthily rose to his feet-the excitement at this moment he cannot describe-he listened-they slept! He reached over one of them and got his hat. He stepped behind a tree, and viewed them for a mement, so as to satisfy himself he was not discovered. He then set out for his dog that had shared with him his captivity. He then also damaged, the goods being ruined by water. felt safe. On that day his poor dog gave out; but De Mint determined to wait for his faithful co-sufferer, and although it retarded his progress, he reached home on Thursday, after an absence of five days. The Indians had Bear's oil in leather sacks, which they lived on, and offered the same to him, but he could not drink it.

In 1796, Mr. De Mint moved to the Big Kentucky river, near the mouth of Mill creek, within three or four miles from Port William, now Carrollton, Carroll county, Ky., where he is now living, at the advanced age of 88 years, and is perhaps the only living survivor among the pioneers of the dark and bloody ground, who was taken captive by the Red man within the boundary of Kentucky. His mind is, at the present writing, unimpaired; and he can relate his early adventures with accuracy. He has raised four children, two sons and two daughtershe never instituted a suit in his life, and was never sued-he never struck a human being, or ever used a profane word; and strange to say, he has never been a member of any church, sect or society.

It is well known, that from time immemorial, Physicians have pronounced Epileptic Fits mentable. It has baffled all their skill, and the boasted power of all uncline, and consequently thousands have suffered through a miserable existence, and at last yielded up their fives on the altar of insanity. Physicians of every age have pronounced this disease incurable. The proposetors of the Vegetable Extract, however, led no delicacy in Saying, that it care be cured. They would, therefore, respectfully invite Physicians and all others who are indepented, to examine the testimony which is here ofered. If it is deception, let it be exposed, but if it is true, then in the name of kuntanity, no longer let it be said that Epilepsy is incurable.

Dr. Penney's Ague Pills.

Dr. Penney's Ague Pills.

In presenting the public with this remedy for the most troublesome of Western diseases, I am not unapprized of the opposition that it will at this meet; for the community has suffered much by the impositions and frauds practiced by the zetters up and venders of patent nostrours specific remedies, and medicines professing to core all diseases. So much have the people suffered from such infractions on their creonity, that it would seem froltsh in any one, at this day, to introduce a specific ter any lisease; but I do it, and do it too, sametime of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public. I do assure it, that they have never faired to cure in one solitary case where the directions were strictly observed.

They seem equally as well adapted to Agues of long standing as more recent ones. I coold addice a great many certificates

as more recent ones. I coold adduce a great many certificates in support of what has been said above, as reserves their success; but that would swell, unnecessarily, this publication. A few respectable witnesses are worth a host that are otherwise. See what Dr. John McRaberts, Integrist and Physician in Lawrence-burg. Rentucky, says, whose acquaintance with the Ague Prits in the Ague Prits in the McRaberts of the Manager of the Manager Prits in the Manager of the Man is better than that of any other person. LAWREN BEURG, KV., Oct. 1847.

This is to certify, that I have been selling Penney's Acide Pills, as local Acent for this place since some time last spring; and in every solitary instance that has come to any knowledge, they have succeeded in curing the Chills and Fevers. I hearthly recommend them to the public, as a remedy every way worthy of comidence. CAMDEN, ANDERSON COUNTY, Ky., Oct. 1847.

This is to certify, that I have been acting as Dr. J. E. Penney's local Agent at this place, in selling his Ague Pilts; and in no case have they failed to one, where the directions have been followed.

ELIJAH ORK. SALT RIVER, ANDERSON CHUNTY, Ky., Oct. 1847. This is to certify, that my grand daughter was afficient with Chills and Fevers last spring. I procured one box of Penney's Ague Pills, and gave them by the directions; she was promptly

effectually cured. Some of my neighbor DAVID EGBERT. Anderson County, Ky., Oct. 1547. This is to certify, that last spring my wife and self were both severely afflicted with Chilisand Fevers. I procured two boxes of Dr. Penney's Agne Pills; we took them by the directions, and neither one of ms had another Chill after we commenced their use. Some of my neighbors have also used them, and, so far as

my knowledge extends, with complete success.

JAMES EGBERT. LAWRENCEBERG, Ky., Gct. 1847.
This is to certify, that I had a gentleman in my employ who had been for some time afflicted with Chil's and Fevers. He procured and used one and a half boxes of Dr. Penney's Ague Pills, which effectually cared bim. Given under my hand, &c. J. G. WIIII E.

Any person taking two of the boxes by the directions, and not being uned of the Ague, my Agents are authorized to refund his money; but in no case will the money be refused, onless the Agent is satisfied that the directions have been strictly followed, and at least two of the boxes taken. One box will cure five out of six cases
